Subject: Missed phone call

Hi Susan,

I apologize for not getting your phone message. I thought I'd mentioned it last week that Tues-Fri of this week I've basically been off-line all day. We put in 12+ hours days (Tues-Fri) for a large animal surgery laboratory. We don't get cell service back here and the tech's office does not allow long distance phone calls. But I'm back in surgery for 98% of the day. This is the first time I've been able to check messages and do any emails.

I will try to check emails again before I leave and if you want me to, I can try to give you a call tonight, but it could be anywhere from 6-9:30 pm your time. It depends on the surgeons here. The fact it is a Friday & Valentine's day gives hope to the earlier. My team is crossing fingers!

Again, please accept my apologies. Paula

This Email message contained an attachment named
image001.jpg
which may be a computer program. This attached computer program could
contain a computer virus which could cause harm to EPA's computers,
network, and data. The attachment has been deleted.

This was done to limit the distribution of computer viruses introduced
into the EPA network. EPA is deleting all computer program attachments
sent from the Internet into the agency via Email.

If the message sender is known and the attachment was legitimate, you
should contact the sender and request that they rename the file name
extension and resend the Email with the renamed attachment. After
receiving the revised Email, containing the renamed attachment, you can
rename the file extension to its correct name.

For further information, please contact the EPA Call Center at
(866) 411-4EPA (4372). The TDD number is (866) 489-4900.
